

What's Changing

Starting July 1, 2026, Ontario is introducing changes under the Insurance Act (Ontario) that will provide Ontario drivers with more choice and control over their Statutory Accident Benefits (SABs) coverage under Ontario auto insurance policies.

Some SABs will become optional when you buy or renew your automobile insurance policy on or after July 1, 2026. Because you now have more choice, it's important to review your SABs coverage to make sure it fits your unique needs. SABs are "no-fault" which means they're available regardless of who caused the auto accident.

Before you consider making changes to your SABs coverage, it's important to review your personal and workplace benefits policies (as applicable), as they may provide similar coverage. Opting out of certain optional SABs might save you money in the short-term, but if you're in an auto accident, opting out of certain SABs may cost you more money in the long run. It's important to weigh these short-term savings against the potential long-term costs of opting out.

Although existing auto insurance policies will renew with the same coverage and limits, who is covered under policies for newly optional accident benefits will change on July 1, 2026, regardless of an auto insurance policy's renewal effective date. As a result, optional accident benefits under your auto policy will only cover the following individuals:

- The named insured
- The spouse of the named insured
- Dependents of the named insured and of the named insured's spouse
- Persons specified in the policy as drivers of the automobile

What's Staying the Same

Standard medical, rehabilitation and attendant care benefits will continue to be included in every auto insurance policy in Ontario. These benefits will help cover the cost of treatment, recovery and personal care if you're injured in an auto accident. Optional SABs—such as supplementary medical, rehabilitation and attendant care benefits, dependent care benefits, and indexation benefits—will stay optional. Starting July 1, 2026, you can still choose to add these benefits to your auto insurance policy in Ontario.

Renewing Your Auto Insurance Policy

Your auto insurance policy will renew automatically with your current coverage and limits (unless you agree with your insurer in writing to decline certain SABs or make changes to them). Starting July 1, 2026, if you purchase or renew an automobile insurance policy you can choose to remove SABs that became optional from your insurance policy, but it's important to consider how removing these benefits could impact you.

Before making any changes to your SABs coverage, speak with a licensed Ontario Broker to understand what changes to your SABs coverage may be right for you and how changes in your personal circumstances (starting a new job, going back to school, or taking on caregiving responsibilities) may impact what SABs coverage you need.

Key Considerations

If you found yourself unable to work as a result of an accident, where would your income come from?

Income Replacement is optional. Without a disability or workplace plan, you could lose your income if you can't work.

Are you the primary caregiver for a dependent such as a child, elderly parent or a person with a disability?

Caregiver benefits are no longer automatic. Opt in to help cover care costs if you become injured in an accident.

If you had a complete inability to carry on a normal life, what costs would you be unable to recover?

Non-Earner benefits provide support if you're a student or are unemployed and can't manage everyday tasks after an accident.

If you became impaired from an accident, would you need to hire someone to do your house cleaning, shoveling and yard work?

Housekeeping & Home Maintenance benefits help with cleaning and household tasks if you can't carry them out yourself.
